New Report Available Long Term Care Span Report

The report represents long term care spans based on the Medicaid eligibility file. Providers may use this report to determine when they should bill for a consumer with a long term care span in place.

This report is available through ProviderConnect reporting. The report is called: "74142.4.01 – LTC Spans".

Additional training on Reports available through ProviderConnect will be coming soon. Please see the training schedule on the ValueOptions Maryland website.
